

Year 2 Home Learning for week commencing 11.5.20

Hi Year 2, I hope you are all well. It was lovely to speak to you this week and to talk to you about some of the things you have been enjoying whilst at home. This past week, I have been trying out some different recipes, my favourite being one for almond cookies (which were delicious!) and I know that some of you have been busy baking and cooking whilst you have been at home. Your English learning this week involves instructions and recipes and there are some for you to actually follow-I would love to see if you have been able to make any of the food.

Also, some of you may be interested in this: 'The Great Bug Hunt Competition.' This fits in very nicely with our topic and science learning. You can find all of the details about this on the following website:

<http://www.schoolscience.co.uk/bughunt>

Finally, as Friday 4th May is V.E. Day, I have sent some activities linked to this for you to complete and to find out why we celebrate this day.

Thank you again to those of you who have been sending me your photos and letting me know what you have been up to. Remember that you can email me any of your learning or anything that you would like to share on the class email address: class2-homeworking@coateslane.lancs.sch.uk

Take care,

From Miss Spencer 😊

English

This week, I would like you to complete some learning linked to instructions and recipes. There is also the chance for you to follow some of these recipes and make the food. I have included an imperative verb mat to help you with your writing.

Email your pieces of learning if possible-I'll look forward to reading/seeing them.

Maths

This week I would like you to continue completing the White Rose Home Learning activities

<https://whiterosemaths.com/homelearning/year-2/>

Do not worry if you are not getting through all of the learning that has been set for each week-just complete them at your own pace.

.Don't forget to log into TTrackstars-you need to know your x2,x5 and x10 tables. I know that some of you have shown that you are on the way to learning your x3 tables so I have set this for you as well. Also, don't forget to learn the related division facts.

Remember to log into Numbots-another useful tool to help you with maths.

Topic

The activities that were set last week were for **two weeks** so this week, the tasks with **(2)** next to them are to be completed (as on last week's news letter).

Personal development

This week, I would like you to have a go at setting the dinner table with the appropriate cutlery, cups and plates.

On-going activities

- You should be reading **every day**. I have set reading books for everyone on Active Learn. Also, take a look at www.oxfordowl.co.uk where you can register for free e-books.
- Practise spelling the Year 1/2 (depending on your spelling group) common exception words and High Frequency words. I've attached the last few Year 2 common exception word activities to help you practise these (for groups one and two) and some High Frequency word tasks (if you are in spelling group 3).
