

Hello everyone

We hope you are all okay.

Please find the learning for 8th January 2025 on the class webpage. Please give it a go if you can 😊

Maths:

Work through the factors PowerPoint and then have a go at the accompanying worksheet on factors. If you can practise your multiplication facts on TTRocks or a website such as hit the button that would be great too.

English:

Have a read of the Robin Hood text and then have a go at answering the retrieval and word meaning questions that are saved in separate documents on the webpage.

Take a look at the collective nouns PowerPoint and then have a go at the worksheet.

Science/ Art:

Take a look at NASA Space Place Art Challenge! Could you give it a go?

If you'd like to join in and get more information about what you'll see in the January night sky, follow the link and check out the video from NASA's monthly sky watching guide, called What's Up! There are also details on this page about the current Space art challenge for this month. It would be great if you could give it a go.

Take care and hopefully see you soon 😊
