

Home Learning 10th January 2025

Please find the home learning outline below and the activities on the webpage.

Maths:

Dividing by 10, 100 and 1000. Work through the PowerPoint and then have a go at the worksheet. Remember, using a place value grid is extremely useful. You could draw one out to help you.

English:

GPS: Have a go at correcting the sentence punctuation. There are 3 levels of difficulty to choose from and you can see if you are correct by looking at the answers included.

Reading – Have a read of the persuasive leaflet about the Alps and then have a go at answering the questions.

Following this and also following on from our learning about persuasive writing, could you have a go at creating your own persuasive leaflet to persuade someone to visit London? We have used this website in class: [Visit London - We are London's Official Visitor Guide](#).

Can you include some of the persuasive features that we have learnt about? This includes things such as modal verbs, exaggeration, rhetorical questions, alliteration, fact and opinion.

Science:

Generate 5 questions that you have about Space and would love to explore the answer to when we are back in school.

Continue to explore the NASA website [Eyes - NASA Science](#)
